

NATIONAL
QUANTUM
MISSION

⚡ World Quantum Day · 14 April 2026

What Quantum Industry Wants?

Confirmed Speakers · Industry Leaders Shaping the Quantum Future

WHAT NQM, INDIA WANTS?

Positioning India as a **global quantum leader**.
Driving ₹6,003 Cr mission across quantum
computing, communication, sensing & **materials**
R&D.

Dr. Jagrati Dwivedi
Scientist / Program Associate
NQM, India

Dr. Victoria Goliber
Head of Technical Advising
D-Wave Systems · USA

WHAT D-WAVE WANTS?

Scaling **quantum annealing** for real-world
optimization. Building industry's first production
quantum computers and expanding **quantum-
ready workforce** globally.

WHAT QUANTROPI WANTS?

Making the internet **quantum-safe** with novel
cryptographic solutions. Pioneering **Quantum
Permutation Pad** encryption and post-quantum key
exchange protocols.

Dr. Randy Kuang
Co-founder & Chief Scientist
Quantropi · Canada

Dr. Ritajit Majumdar
Research Scientist
IBM Quantum · India Research Lab

WHAT IBM QUANTUM WANTS?

Achieving **quantum utility** at scale. Advancing error
correction, building 100K+ qubit systems, and
enabling researchers globally with **IBM Quantum
Network**.

WHAT DELOITTE

WANTS?

Preparing enterprises for the **quantum threat**. Leading **quantum-safe cybersecurity** transformation and cryptographic agility across industries.

Dr. Shravani Shahapure

Associate Director · Quantum Safe
Deloitte · Risk Advisory

Biman Chattopadhyay

Co-founder & CTO
Quanfluence · Bengaluru

WHAT QUANFLUENCE

WANTS?

Building India's first **general-purpose quantum computer** using photonic technology. Developing **optical Ising machines** for real-world optimization at scale.

WHAT TCS RESEARCH

WANTS?

Finding **industrial quantum applications** in sensing, communication & computing. Exploring photonic Ising machines and **quantum metrology** for healthcare & materials.

Dr. Sourav Chatterjee

Research Engineer
TCS Innovation Labs · Pune

Dr. Nayana Das

Research Engineer
LTI Mindtree

WHAT LTI MINDTREE

WANTS?

Advancing **quantum-safe communication** and post-quantum cryptography. Building secure infrastructure ready for the **post-quantum era** across enterprise systems.

WHAT TAQBIT

WANTS?

Deploying **quantum-safe cybersecurity** for defense, telecom & enterprise. Building production-ready **QKD & QRNG** systems for quantum-secure communication.

Dr. Rashi Koul

Quantum Technology Expert
Taqbit Labs · Bengaluru

Dr. Pranab Dutta

CEO & Co-founder
GDQLabs · IISER Pune

WHAT

GDQLABS

WANTS?

Bringing **quantum precision** to healthcare.
Developing MAGSENSE™ quantum magnetic sensors for **radiation-free cardiac diagnostics** in under 5 minutes.

WHAT

QNU LABS

WANTS?

Building India's **quantum cryptography** future.
Developing unconditional data security with **post-quantum & QKD solutions** protecting against quantum attacks.

Dr. Amit Kumar Chauhan

Senior Research Associate
QNu Labs · Bangalore

ORGANISED BY

HOST & ORGANISER

Dr. Shashank Gupta

Assistant Professor
IIT Indore · Dept. of Physics & ICQC

DATE

14 April 2026

TIME

10:00 – 18:00 IST

VENUE

Google Meet
