

⚡ World Quantum Day · 14 April 2026

What Quantum Industry Wants?

WHAT

BIG4

WANTS?

Big4's Quantum Safe practice within Risk Advisory helps enterprises prepare for the quantum threat to cybersecurity. Through cryptographic agility assessments, quantum risk frameworks, and post-quantum migration strategies, Big4 leads the industry in quantum-safe transformation across sectors.

Dr. Shravani Shahapure

Associate Director – Quantum Safe Cybersecurity

BIG4 (RISK ADVISORY)

SPEAKER BIO

Dr. Shravani Shahapure is an Associate Director at Big4, leading the Quantum Safe cybersecurity, Cryptography, and Quantum Computing practice within Risk Advisory. With 20+ years in cybersecurity, she holds two patents in cryptography and quantum computing and an M.E. from IIT Bombay. She previously held senior roles at Capgemini, PwC India, and the Data Security Council of India. Shravani is deeply committed to helping enterprises navigate the quantum threat landscape and is known for making complex security concepts accessible.
